

The Way That I See You

*Sticks and stones, they may break bones,
But words can break a heart.*

*And life's a race that's hard to run
When you don't have strength to start.*

*I want you to know you're beautiful,
You're a work of art... it's true*

*There are those who may be foes,
They'll try to bring you down.
The self-doubt gets inside your head
And works its way around.
But I'm right here to tell you, dear,
The best I've ever found is you...*

*(Chorus) If you could see yourself the way that I see you,
Then you'd know that there's nothing you couldn't do.
And every last little one of your dreams would come true
If you could see yourself the way that I see you.*

*There may be times when songs and rhymes
Don't seem to be enough
To get you through them grays and blues
When the goin' gets too tough.
That's when I pray you'll find your way.
That's when I pray that love comes through...*

(Chorus)

*Spinning on a summer breeze, we're makin' perfect memories today.
Innocent just like a child, I love it when I see you smile that way.
I'd love to make this moment last, but moments, they go by so fast
You know...*

(Chorus 2x)
